

## Transition Challenge

### Summer 2023

This year we are doing things a little differently...

There are 4 challenges for the summer:

- Reading Task
- Maths Task
- Environmental Science Challenge and Planets Task
- Sport and Healthy Lifestyles – OPTIONAL Challenge

This year we are concentrating on YOU. We want you to concentrate on your Core Subjects of English, Maths and Science – we don't want all those skills you have built up through year 6 to disappear!

We want you to have fun this summer and join us well rested, raring to go and with a Blue Peter Badge or two on your Blazer!

We have also added an optional Challenge around Healthy Lifestyles. Go on try something new.

Keep your work in a safe place. You will be asked to upload your tasks in September when you have subject Teams.

Sometimes tasks and challenges can be 'hard', 'difficult' or a 'challenge' and that's ok. We are a Growth Mindset school and its all about not giving up at the first hurdle, being resilient and just doing your best

**All work will be submitted via TEAMS in September.**

**BUT**

**We would really like to see those Blue Peter Badges!**

Have fun and good luck!
