

# BTEC Dance

## **Task 1**

Research '**The Life of a Dancer.**'

You must consider aspects of a dancers life including:

- Education
- Training
- Diet
- Lifestyle
- Skills and attributes

## **Task 2**

Broaden your knowledge of professional practitioners and their works. In September you will be completing a mock presentation that will be delivered to the class based on your research of your favourite practitioner. Below are a list of practitioners we would like you to research. You can watch their works on Youtube and discover more about them as practitioners. It may be useful to begin taking some notes and ideas based on your research.

***Practitioners include:***

- *Wayne McGregor*
- *Pina Bausch*
- *Martha Graham*
- *Akram Khan*

Other useful links include accessing the '**Sadler's Wells Digital Stage**' website where they are offering free online viewings of professional dance works. These include works of the above practitioners. You may also find the '**James Cousins Youtube Channel**' useful for some further professional work inspiration. We want you to discover what is out there in the professional dance industry at this moment in time.
