

A student perspective: **Geography**

Why did you choose this subject?

I really enjoyed this subject at GCSE level and wanted to expand on my knowledge of the subject so decided to do A Level.

Give examples of what you have studied in this subject:

Globalisation, Regeneration, Tectonic Processes and Hazards and Coastal Landscape and Changes. It is split into Physical and Human Geography with different teachers for each part.

What do you enjoy most about studying this subject?

I enjoy learning topics that affect us in everyday life and how they link to Geography A level. For example, studying globalisation links to the Covid-19 pandemic. Lots of the topics we study can be linked to the news and current affairs.

What Advice to someone who is considering this subject:

Stay organised, keep up to date with revision and organise your folder with the correct sub dividers to ensure that you keep all work neat and together in certain components. Make sure you enjoy Geography at GCSE due to some of the topics overlapping.

What subjects do you study alongside this one?

English and Psychology

What are your plans Post-18?

Either University for Psychology/ Criminology or possibly an apprenticeship in the Police.
