

A Level Biology – Teaching schedule

	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
Year 12	<p>Paper 1/2/3 Cell structure Biological molecules Biological membranes</p>	<p>Paper 1/2/3 Nucleotides and nucleic acids Enzymes Biological membranes</p>	<p>Paper 1/2/3 Cell division, cell diversity and cellular organisation</p> <p>Paper 2/3 Communicable diseases, disease prevention and the immune system</p> <p>Paper 2/3 Exchange surfaces</p>	<p>Paper 2/3 Classification and evolution Biodiversity</p> <p>Paper 1/3 Transport in animals Transport in plants</p>	<p>Paper 2/3 Biodiversity</p> <p>Paper 1/3 Transport in plants</p>	<p>Paper 1/3 Respiration Photosynthesis</p>
Year 13	<p>Paper 2/3 Cellular control Patterns of inheritance</p> <p>Paper 1/3 Communication and homeostasis Hormonal communication</p>	<p>Paper 1/3 Neuronal communication Excretion as an example of homeostatic control Plant and animal responses</p>	<p>Paper 2/3 Manipulating genomes Cloning and biotechnology</p>	<p>Paper 2/3 Ecosystem Populations and sustainability</p>	<p>Paper 1/2/3 Revision and Exam Skills</p> <p>A-level Biology Exam Practice and personalised revision sessions</p>
